

The Exclusive Immersions Letter · No. 1

Welcome and thank you for being here.

This is the first issue of a monthly letter from **Exclusive Immersions**. **Once a month**, we'll share how we design school immersion programmes — who we are, what a trip actually looks like day by day, and what we've learned from running them. This edition starts with an introduction, then follows one school across two capitals.

Who we are?

Exclusive Immersions designs **tailor-made academic trips to France & Europe for international schools**, welcoming students aged 7 to 18 in groups of 20 and above. Every programme is structured around **4 pillars** : *Culture & Creativity, Activity & Adventure, Service & Leadership, Academics*.

By the way, EXIMMS we try to add **French language lessons** with real cultural immersion — landmarks, museums, gastronomy and entertainment — built around each school's own calendar and objectives rather than a fixed package.

Behind every itinerary is a small Paris-based team — **Christopher, Nicolas, Stéphane and Guillaume** — who design and run each trip in person, from the first email to the final airport transfer. **Our programmes are all-inclusive** — no bad surprises — and **EXIMMS always puts 2 of our staff on the ground in charge of logistics and security 24/7**. We also focus on security and safety, among other things we have a specific medical insurance included throughout the stay.

More than a trip, our programmes offer an immersive experience in European and French culture, blending language learning, iconic sites, gastronomy and entertainment — all in a secure, refined environment.

A Discovery of European Cultures

Over nine days this summer, students from an International School crossed the Channel to discover European culture up close — *from London's National Gallery, Westminster Abbey and Shakespeare's Globe, to Paris's Louvre, a Seine river cruise and an afternoon between the Champs-Élysées and Montmartre*.

Each city brought its own rhythm, its own language, its own way of telling its story — every itinerary we build is shaped around what a school wants its students to discover, never a fixed formula.

What we look for in every programme

1

Certified safety standards — *Registered with Atout France and covered by APST, and medical insurance included throughout the stay.*

2

Language and culture, side by side — *Language lessons paired with real cultural immersion — museums, landmarks and, where the itinerary allows, a second capital entirely.*

3

Built around the school, mets — *built around the school between step by step, with our local team and our European directors in charge of the trip: 100% tailor made.*

4

A team that stays close throughout — *The same small team designs, runs and follows up on every trip in person — from the first planning call to the final airport transfer.*
